STRENGTHS

GO-Getter

20+ recognitions have taught me that with persistence, one can achieve anything

Team member

With three different teams that i've worked with all of them have been satisfied of me as a team member

Hard worker

I am a hard worker that is always looking to improve his abilities and himself.

Curiosity

Always wondering about new things

Embracing mentorship

John Krystynak says that "great programmers don't become great in isolation." So I embrace every help i can have.

Adaptability

The world is always changing and as a developer I need to stay adaptable.

Speed & Productivity

Less is more in the world of code, so I provide concise, maintainable, and understandable code

ACHIEVEMENTS

Best web project

Got the best website project at the gymnasium of natural sciences.

Math olympiad

1. Got first place four years in a row at a local olympiad for math.
2. Got first place and second place in the national olympiad for math.
3. 5th place on Eureka.
4. 2nd place in Kangaroo math competition.

Robotic Race

Won first place with a team of two on the robotic race hosted by JUNIOR GEEKS.

Physics olympiad

Won the first place at my high school at the physics olympiad.

Student management

Won the best website for managing students at my school.

SUMMARY

My resume may not be perfect, but as a seventeen year old I believe that with my abilities and desire to always learn, I can bring to your company dedication and hard work. I am a problem solver, great at multitasking and good at communicating with team members. Everything a company needs.
